**INVESTING IN AMERICA**

Across the United States, almost 8.5 million locations lack access to high-speed Internet service. **The Biden Administration’s Investing in America agenda aims to bridge this divide and connect everyone in America with affordable, reliable, high-speed Internet service.** Last year, the Administration launched the **Internet for All** initiative with \$65 billion from President Biden’s Bipartisan Infrastructure Law, \$25 billion from the President’s American Rescue Plan, and several other high-speed Internet programs. **Internet for All** will deliver high-speed Internet infrastructure to every corner of the country, enable working families to afford service, and ensure that everyone has the digital skills and devices they need to fully utilize the Internet. Together, we will close the digital divide and grow our economy from the bottom up and middle out.

<b>Total State Funding:</b>	<b>\$2,421,917,893.37</b>
